English for Teachers

Duration: 15 hours (5 days)
Each session lasts 90 minutes

Who is this course for?
This course is specifically designed for non-English teachers who wish to develop their speaking fluency in English.

Please note:
Participants with an English level of B1+ and above will follow this programme.
Participants with levels A1 and A2 will attend General English lessons instead.

General Objectives:
Participants will work on developing their fluency through engaging discussions on topics of general interest. The course uses an interactive communicative approach to provide experiential learning. Lessons are conducted as hands-on workshops or discussions, incorporating brainstorming, analysis, problem-solving, and role-play in pairs and groups.

Learning Objectives include:
Developing fluency, enhancing knowledge of English grammar, exploring relevant tech tools including AI, learning to create and use lessons with AI, and discussing education-related topics.

Available Dates:
21/07/2025 - 25/07/2025
11/08/2025 - 15/08/2025
25/08/2025 - 29/08/2025
15/09/2025 - 19/09/2025
27/10/2025 - 31/10/2025

Advanced Classroom Management and Techniques 25

Duration: 25 hours (5 days)
Each session lasts 90 minutes
Morning sessions include ovservations of experienced teachers, followed by reflection and discussion time

Who is this course for?
This course is for English teachers who want to enhance their teaching skills and broaden their general knowledge of teaching practices.

General Objectives:
The course focuses on providing practical skills to create an engaging and student-centred classroom environment, specifically aiming to help learners achieve their learning objectives effectively.

By the end of the course, participants will: Have observed experienced teachers and reflected on good classroom practice, improved board work skills, polished their knowledge of teaching methodologies and approaches, be able to deliver instruction cycles clearly, widened their repertoire of activities, provide higher quality feedback, have an action plan for future development, integrate games, and know how to motivate students.

Available Dates:
01/09/2025 - 05/09/2025

! Also Available!

Advanced Classroom Management and Techniques 50

Note:
While the duration is not explicitly stated as 50 hours in a description block, the dates provided in the source cover a two-week period.

Available Dates:
04/08/2025 - 15/08/2025

Creating interactive lessons by using technology in the classroom

Duration: 25 hours (5 days)
Each session lasts 90 minutes
Morning sessions include ovservations of experienced teachers, followed by reflection and discussion time

Who is this course for?
This course is for English teachers who are interested in integrating technology into their lessons and creating enjoyable learning experiences.

General Objectives:
The course aims to boost teachers' confidence and fundamental skills in using technology in the classroom. It also provides tools to create more interactive environments using games. A key focus is the use of Artificial Intelligence (AI) in the classroom, including how to use AI for lesson preparation.

By the end of the course, participants will: Have observed experienced teachers and reflected on their own teaching, be better prepared for teaching online lessons, be able to create and use various games in the classroom, have explored a range of tech tools, have enhanced their knowledge of AI and awareness of related issues, and be able to create and use lessons with AI, including using AI with their students.

Available Dates:
30/06/2025 - 04/07/2025
20/10/2025 - 24/10/2025
